# WELCOME TO OWI MED 2021

The Offshore Well Intervention Conference, Mediterranean (OWI MED 2021) will be launching for the first time as an exciting and engaging virtual forum.

Through more than 30 hours of primary research, we've uncovered the highest priority challenges impacting the planning and execution of well intervention and P&A projects in the Mediterranean. By engaging with regional operators and international technology & service providers, we have put together a programme that will help you to focus on developing an intervention strategy that aligns with the current market focus, optimizing well integrity, production and P&A programmes.

OWI MED 2021 intends to not only bring together leading Mediterranean operators, but also share international case studies allowing attendees to learn how to adapt strategy and explore new intervention approaches and technologies, bridging gap

and improving future well work. By sharing current industry challenges and future project focus, the community can work together to provide lessons learnt and innovative solutions to ensure you have a strong intervention approach for 2021/2022 campaigns.

Key features of the conference include:

- **Well Integrity:** Discussing how to change the perception of well

**ERIN SMITH**

Key Accounts &  
Snr. Project Manager  
Offshore Network

integrity management from a production obstacle to an essential, cost-effective way of boosting production

- **Production Enhancement:** Establishing new techniques and technologies, to understand how best practice production enhancement can be more commercially viable than new drilling activities
- **Ageing Assets:** Understanding how to assess your ageing assets to determine rejuvenation and abandonment candidates to increase the future commercial viability of your portfolio
- **P&A:** Recognising the benefits of implementing a standardised decommissioning and abandonment process to minimise risk and reduce costs for your future P&A campaigns

150+ Senior Well Intervention Decision Makers

30% Attendance from Major, Independent or National Operators

20+ Well Intervention Subject Matter Experts Sharing Latest Best Practice Experience

4 Exclusive Sessions

PLUS An exclusive operator only discussion session on Rig V's Riserless Interventions

# AGENDA FOCUS

## INTERVENTION IN THE MED

Access an overview of the Mediterranean well intervention market, reviewing new intervention approaches and discovering potential technology gaps, to improve your future well work

## WELL INTEGRITY

Discuss how to change the perception of well integrity management from a production obstacle to an efficient way of boosting production

## PRODUCTION ENHANCEMENT

Establish new production enhancement techniques and technologies, to understand how best practice production enhancement can be more commercially viable than new drilling activities

## AGEING ASSETS

Understand how to assess your ageing assets to determine rejuvenation and abandonment candidates to increase the future commercial viability of your portfolio

## P&A

Recognise the benefits of implementing a standardised decommissioning and abandonment process to improve your future P&A campaigns

## TRANSFORMATIVE TECHNOLOGIES

Discover which technologies are having the greatest impact on increasing efficiency and reducing the cost of well intervention and P&A campaigns

### OWI MED 2021 SPEAKERS INCLUDE:

“Excellent format with some really interesting and formative presentations.”

Colin Tait,  
Senior Well Engineer, Shell

# AGENDA

## OWI MED WILL BE GOING VIRTUAL 25-27 OCTOBER 2021

The online workshop will consist of 4 exclusive sessions addressing key aspects of the Mediterranean Well Intervention Market

### DAY 1

#### Session 1, 2pm EET

#### Introduction to Well Intervention in the Mediterranean

- **Market Overview:** Access an overview of the Mediterranean well intervention market, and learn how to adapt your strategy to the change in focus from drilling to intervention work
- **New Intervention Approaches:** Review new approaches for offshore well intervention and how these methods can improve the future of intervention in the Mediterranean
- **Bridging Technology Gaps:** Hear about intervention technologies being utilized in the region and learn where technology gaps may be an issue for future projects

**Carl Roemmele**  
Subsea Intervention  
Executive Director  
Baker Hughes

**Daniele Petrone**  
Life of Field Solutions Manager  
OneSubsea

**Scott Clayson**  
Commercial Manager -  
Subsea Intervention  
Baker Hughes

**Abdullah Moustafa Mohamed Saad**  
Senior production technologists  
BAPETCO

**Mohamed Omar**  
Subsea Completions and Workover Engineer  
Rashpetco

### DAY 2

#### Session 2, 2pm EET

#### Maturing Assets and P&A

- **Recovery or Abandonment:** Discover how to identify which of your assets need rejuvenation and which need abandonment to plan effectively for field management
- **Standardised Well P&A Approach:** Recognise the benefits of implementing a standardised decommissioning and abandonment process to improve your future P&A campaigns
- **Cost Effective P&A Methods:** Investigate new industry methods which make P&A a more cost effective and efficient process

**Alex Nicodimou**  
VP, Sales & Marketing,  
Well Intervention  
Welltec

**Paolo Nunzi**  
Operations Support  
Manager  
ENI

**Neil Greig**  
Sales Manager  
Helix well Ops (UK) Ltd

**Luca Martini**  
Well Engineering  
Manager  
ENI

**David Dempsie**  
P&A Task Force Leader  
Repsol

# AGENDA

## DAY 2

### Session 3, 3pm EET

#### The complete solution for the lifecycle of the field

- Understand the current capabilities available in region for upcoming intervention projects, including riserless and riser based vessels, DSV's and CSV's
- Access insight into successful P&A Case histories, looking at the benefits of completing 'rigless' abandonments
- Secure success proven stimulation techniques and technologies, to increase production in later life wells

**Neil Greig**  
*Sales Manager*  
**Helix well Ops (UK) Ltd**

## DAY 3

### Session 4, 2pm EET

#### Well Integrity & Production Enhancement Strategies

- **Preventive Maintenance:** Understand how to recognise structural damage to aging wells and implement an effective preventive maintenance plan for future well work
- **Boost Production:** Discuss how to change the perception of well integrity management from a production obstacle to an efficient way to boost production
- **Economics of Well Intervention:** Study the economics of well intervention campaigns and how best practice production enhancement can be more commercially viable than new drilling activities

**Mustafa Adel Amer**  
*Well Integrity Specialist*  
**BAPETCO**

**Atef Mohamed**  
*Senior Workover Supervisor*  
**Shell**

**Remke Ellis**  
*Domain Champion*  
**TGT Oilfield Services**

# AUDIENCE OVERVIEW

250+ attendees will join us online at OWI MED 2021

OWI MED ATTENDEES BY COMPANY TYPE

- **40%** Operators and Regulators
- **40%** Well Services
- **20%** Technology Companies

OWI MED ATTENDEES BY JOB FUNCTION

- **45%** Senior Management
- **32%** Engineering
- **13%** Business Development
- **3%** C-Level
- **7%** Other

OPERATORS WHO ATTEND OUR GLOBAL OWI SERIES

# SPONSORSHIP OPPORTUNITIES

Position yourself as a subject leader by becoming a 'headline sponsor' of one of the virtual conference days

Share the stage with leading operators to position yourself as a key solutions provider in Mediterranean

Place your brand as a leading intervention service provider through the conference website, brochure and virtual conference app for OWI MED 2021

We will assist you in securing exclusive meetings with your target clients from operators and well service companies

Share your latest innovative technologies and/or services to our database of leading well intervention experts for prospective clients to hear about your expertise

Host an interactive virtual session on a business-critical topic to a select audience of potential clients and partners

## OWI MED 2021 SPEAKERS INCLUDE:
