WELCOME TO D&A APAC 2023

Implement an effective decommissioning strategy that reduces liability and maximizes P&A and structure removal efficiency

Asia's leading decommissioning & abandonment conference is back! On 1-2 November, the experts in the decom world will be discussing the importance of implementing effective structure removal & P&A strategies to allow for successful and cost effective decommissioning in the Asia Pacific.

Asia Pacific's decommissioning and abandonment market is ramping up, with approximately 200 offshore fields in SE Asia, comprising of more than 1,500 platforms and 7,000 plus well, which are likely to stop producing by 2030! The scope of work to come is vast, the importance of best practice solutions, and innovative tech to

ensure effective and cost efficient decom work can take place is the new focus.

D&A APAC will provide you with the best practice blueprint for your future decom and

abandonment campaigns through:

- **Interactive networking sessions:** Connect with global decom experts to learn about best practice solutions and new tech which can be utilized for future projects
- **Interactive Workshops:** Learn more about the importance of project planning ahead of decommissioning with an interactive Q&A panel discussion
- **Tech Demos:** Access exclusive tech demos in the technology showcase hall, understanding which tech is available now in your region for your upcoming well work
- **Operator lead presentations:** Hear best practices and lessons learned from leading regional operators assisting in the success of your decom & abandonment projects

Make sure you don't miss out! Speaker and sponsorship opportunities are limited – contact me directly now if you have any questions.

AGENDA FOCUS

Get in touch with ERIN SMITH to discuss speaking opportunities - esmith@offsnet.com | +64 (0) 3 569 3074

IMPORTANCE OF PLANNING & COSTS

Learn the importance of implementing best practice project planning methods from the start of the well lifecycle to ensure decom efficiency and reducing liability of future campaigns

ASSET INTEGRITY

Utilize a well integrity management system to map out the structural integrity of your assets to ensure they're capable of withstanding decommissioning and abandonment work

WELL P&A

Hear about best practice P&A methods and innovative tech to reduce cost and improve success rate in your upcoming P&A campaigns

ENVIRONMENTAL IMPACT

Access environmental legislation, including rigs-to-reef and 'left in place' methods reducing risk of environmental impact through project planning

DECOMMISSIONING OF ASSETS

Outline best practice techniques for decommissioning of facilities and subsea equipment reducing operational risk and environmental impact, whilst increasing project efficiency

INNOVATIVE TECHNOLOGY

Learn about new innovative technologies to increase efficiency and reduce the cost of decommissioning and abandonment projects

EXPERT SPEAKERS

Get in touch with ERIN SMITH to discuss speaking opportunities - esmith@offsnet.com | +64 (0) 3 569 3074

► CONFERENCE CHAIRS

DAY 1 CHAIR

**MOHAMAD SHAH REZA
MOHAMAD BAKRI**
Wells Engineer
ExxonMobil Exploration
& Production Malaysia
Inc. (EMEPMI)

► OPERATOR REPRESENTATIVES

**BAHARRUDIN ABDUL
KANI**
D&R Project Manager
Brunei Shell Petroleum

AZMEER AHMAD
*Senior Manager, Wells
Operations*
EMEPMI Wells Team

**MOHD ARIFF
MOHAMAD**
Senior Workover Engineer
Hibiscus Oil & Gas
Malaysia Limited

► OPERATOR REPRESENTATIVES

HUZAIMI AMIR
*SAA Decommissioning Project
Manager - Installation and
Decommissioning Lead*
Hibiscus Oil & Gas
Malaysia Limited

**MOHAMAD ANAS NAJMI
BIN ABDUL RAZAK**
*Wells P&A Engineer, Wells
P&A and Decommissioning
Wells Integrity & Workover*
Petronas Carigali

**AHMAD ZAWAWI
ABDUL RAJA**
*Well P&A and
Decommissioning*
Petronas Carigali

SLB

AGENDA

Get in touch with ERIN SMITH to discuss speaking opportunities - esmith@offsnet.com | +64 (0) 3 569 3074

Chaired by: Mohamad Shah Reza Mohamad Bakri, *Wells Engineer*, **ExxonMobil Exploration & Production Malaysia Inc. (EMEPMI)**

Session 1: Asia's Mature Field – Market Forecasts Decommissioning and Restoration in Brunei Shell

- Access an overview of Brunei Shell Petroleum's decommissioning and abandonment programme
- Discuss challenges & lessons learnt from past D&R projects to improve future well work
- Learn from our continuous improvement & best practices journey towards more efficient execution

Baharrudin Abdul Kani, *D&R Project Delivery Lead*,
Brunei Shell Petroleum Sdn Bhd

P&A in Malaysia - Market Overview, Challenges and Opportunities

- Access an overview of the history of P&A and Decommissioning over the past 2 decades in Malaysia with comparison to other nations in the region
- Discuss the significance of P&A activities the challenges it brings to the industry and service sectors, due to the associated costs
- MOGSC provide an overview of the opportunities which are still to come and recommendations on how to navigate this market

Anwarudin Saidu Mohamed, *Honorary Secretary*,
Malaysia Oil, Gas & Energy Services Council (MOGSC)

Session 2: Regulatory & Environmental Updates Asia Pacific's Decommissioning & Abandonment Forecast

- Hear an activity forecast on asset retirements in Asia Pacific highlighting the scope of upcoming work
- Access an update on regulations and liability status for upcoming decommissioning projects allowing you to strategise accordingly, reducing liability where possible
- Review new environmental legislation, including rigs-to-reef and 'left in place' methods reducing risk of environmental impact through project planning

Ahmad Zawawi Abdul Raja,
Well P&A and Decommissioning, **Petronas Carigali**

Session 3: Innovation in Well P&A End-to-end Solution on Section Milling and P&A Services

- Explore Archer's solutions portfolio around steel removal through section milling in single or multiple casinging
- Examine innovative magnetic separation technologies associated with the swarf management and processing of drilling fluids
- Understand how to reduce decommissioning liability with an optimized abandonment establishing barriers (Perforate, Wash and Cement system) to reduce decommissioning costs

Parker Matthews, *Operations Manager Australasia*, **Archer**
Mark Lateu, *Global BDM*, **Archer Oiltools**

Exit Sub™ - Remote Slickline Release Option, Every Toolstring, Every Time

- Learn more about 'The Exit Sub™' and how it has rapidly become the Slickline Release Tool of Choice for major Offshore Operators
- Hear how the Exit Sub, provides the operator with a built-in release mechanism every time slickline is run, avoiding costly downtime
- Reduce the complexity of fishing operations by providing an industry standard, clean fish neck for recovery of the stuck lower toolstring left in hole

Rob Maurer, *Regional Manager*, **Impact selector**

Session 4: Importance of Planning & Costs Cost Evolution for Wells Abandonment

- Analyse best practice project planning methods to ensure your budgeting correctly and implementing efficient cost control measures
- Understand the importance of applying a critical path, project workflow and completing a robust asset analysis for increasing efficiency and reducing liability of your upcoming campaigns
- Discover innovative technology entering the market which can assist in reducing your decommissioning liability

Mohd Ariff Mohamad, *Senior Workover Engineer*,
Hibiscus Oil & Gas Malaysia Limited

AGENDA

Get in touch with ERIN SMITH to discuss speaking opportunities - esmith@offsnet.com | +64 (0) 3 569 3074

Panel Discussion: Importance of planning at the start of the well life cycle

- Discuss the importance of planning for decommissioning in the early stages of the well life cycle to reduce project friction in older wells
- Talk about the benefit of early planning ahead of well P&A to ensure more efficient and cost effective campaigns
- Analyse the impact early planning can have on future decommissioning work and how this can be implemented for future projects

Mohamad Anas Najmi
Bin Abdul Razak
*Wells P&A Engineer, Wells
P&A and Decommissioning,
Wells Integrity & Workover,
Petronas*

Noor Nordin,
*Well Engineering Manager,
Sarawak Shell Bhd*

ExxonMobil

Azmeer Ahmad,
*Senior Manager, Wells
Operations,
EMEPMI Wells Team*

Caired by:
Tasso Magalhaes,
*Global Completions & Well
Intervention Manager,
SLB*

The Pivotal Role of Asset Management Practices During the Decommissioning and Abandonment of Oil and Gas Facilities

- Understand the significance of proactive asset management in optimising decommissioning and abandonment phases
- Hear about risk assessment methodologies and cost-effective strategies for efficient asset disposal.
- Learn about the growing importance of data analytics and technology in modern asset management

Noel Bonnick, *Managing Director,
Perpilion Malaysia Sdn Bhd*

Session 5: Decommissioning Facilities

Decommissioning for South Angsi Alpha

- Discuss the process used to map out a successful P&A and decommissioning strategy to ensure efficiency during project execution
- Hear lessons learnt during the P&A phase of the project and how these were implemented to ensure the next phase of the campaign could take place
- Talk about the importance of the conceptual phase of the decommissioning campaign for allowing effective decommissioning

Huzaimi Amir,
*SAA Decommissioning Project Manager - Installation
and Decommissioning Lead,
Hibiscus Oil & Gas Malaysia Limited*

Decommissioning in a Changing Market

- Access an introduction to AF Offshore Decom and how they contribute to the decommissioning market
- Discuss 'the decommissioning mindset' and look at alternative decommissioning models to improve your future work
- Hear case study based lessons learned to ensure the best project outcomes for upcoming decommissioning campaigns

Graeme Fergusson,
Commercial Director, AF Offshore Decom

Advancing Sustainable Solutions in Pipeline Decommissioning and Repurposing: Decom Engineering's Innovative Approach

- Access a comprehensive look at the evolving landscape of pipeline decommissioning, identifying key challenges and opportunities in the industry
- Hear a case study which reviews sustainable decommissioning solutions to ensure vessel time is reduced and job productivity improved
- Learn the latest expertise for decommissioning onshore, offshore and subsea with global case studies to support these capabilities

Sean Conway, *Managing Director, Decom Engineering*

WHO ATTENDS

30%+

of Attendees are from Asia Pacific
Operating Companies

Offshore Network has provided Asia Pacific with bespoke well intervention and decommissioning & abandonment conferences for 9 years. At our events leading operators come together to discuss the current market and define their project strategies and identify new solution providers for future campaigns. Take a look at who attends below...

4 REGULATORY BODIES

6 INDEPENDENT OPERATING COMPANIES

5 NATIONAL OIL COMPANIES

3 MAJORS

ExxonMobil

9 REGIONAL OIL COMPANIES

Share the stage with regional, major and independent operators to position yourself as a key solution provider for well decommissioning campaigns in Asia Pacific

Launch your latest decom and P&A technologies and services to 180+ potential buyers from the oil & gas community

Position your brand as a leading decommissioning service provider through our website, social media groups, brochure and onsite at D&A APAC

We will assist you in securing onsite meetings with your target clients from operators and well service companies

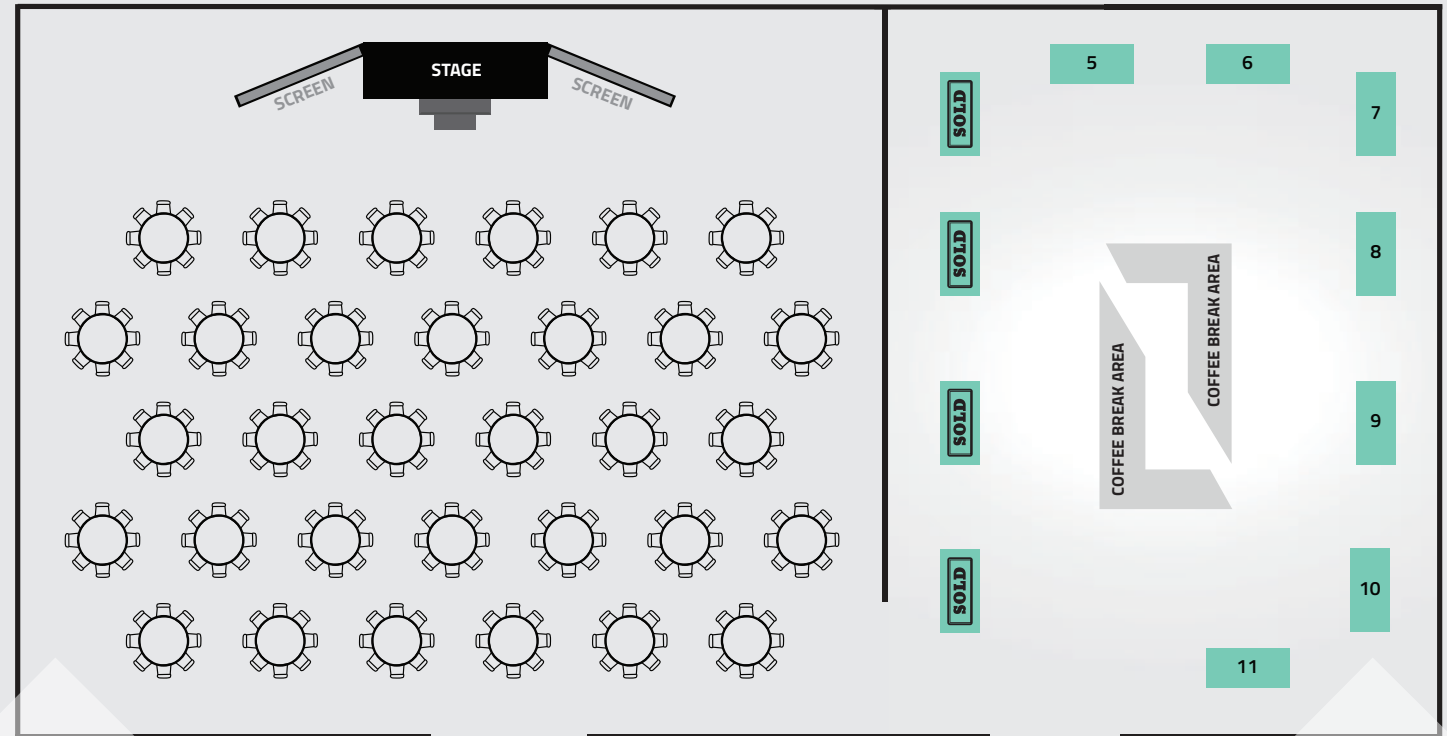

Host an interactive lunch and learn session on a business-critical topic to a room of selected potential clients and partners

Display and demonstrate your tools and solutions in our Technology Showcase Hall to prospective clients

SPONSORSHIP & EXHIBITION

CONFERENCE ROOM

D&A APAC 2023 welcomes a host of expert speakers sharing topics including: Regulatory updates, importance of planning & costs, asset integrity, decommissioning facilities and a host of innovative technologies.
